

How to Make a Round Mirror

You will need:

one piece of bendable, reflective material

Silver Mylar® works best. Sometimes you can find silver Mylar® at a craft or hobby store. You can use aluminum foil, but it might get too crinkly. You could also try cutting up a Mylar® balloon if you have one. You can purchase a pre-cut piece of silver Mylar® from the author's website: www.kellymhoule.com.

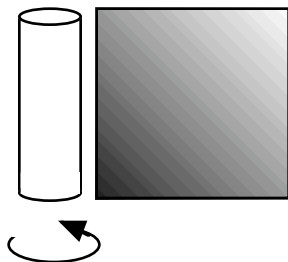

one cardboard tube about 4" long

You can use a paper towel tube cut in half, or a toilet paper tube

tape

1

Wrap the reflective material around the tube.

2

Tape the seam.
